Re: Aerospec NDT Services

Dear Paul;

EDAWN hereby supports the application of Aerospec NDT Services for the Aviation Sales & Use Tax Abatement and Aviation Personal Property Tax Abatements (equipment, aircraft) incentives.

Aerospec provides non-destructive testing laboratory services for the commercial aviation, defense, pipeline, and automotive industries. The company is planning to open its operation in the Reno area and includes the corporate headquarters.

The company will be investing approximately $6.69 million in capital equipment by the end of Year 1 and over $124 million by Year 20. Aerospec also plans to hire 30 employees by the end of the first year at an average wage of $31.37 per hour.

The company’s compensation package includes medical, dental, vision, and merit increases, overtime, PTO/sick/vacation, and retirement plan/profit sharing/401K. Employee health insurance is covered 80% by the company and commences upon employment.

EDAWN supports this application as the company meets the average hourly wage elective requirement. Your consideration and support of the incentive application for Aerospec is a significant factor in their pending decision to expand in northern Nevada and speaks favorably to the State’s business-friendly environment.

Sincerely,

Stan Thomas
EDAWN, Executive Vice-President
Business Development

Las Vegas, NV 89101

Mr. Anderson,

Positive effects of Tax Incentives and Abatements:

As part of AeroSpec’s commitment to Nevada and the opportunity that the aerospace sector presents, it is creating a new competitive aerospace industry for Nevada.

AeroSpec’s ambition is to create a globally competitive aerospace industry around our Aerospace Nondestructive Testing MRO capabilities, Aero Structures, OEM and Training. This is underpinned with education and research & development initiatives adopting high-technology facility and providing a platform for the local Nevada workforce to further advance and diversify their skill-set within this industry.

When we initially spoke to EDAWN our decision was clear, Nevada provided a positive business climate and ample opportunities to grow, employing a larger workforce and providing greater business growth.

Workforce Development:

Nevada’s ability to provide a workforce pool so AeroSpec can sustain and eventually grow operations. Offering training programs in specific areas such as technology, can provide AeroSpec with a qualified workforce on an ongoing basis. The research facilities at the universities are attractive to our business, that require Research & Development for new products. AeroSpec will begin the process of hiring, job classifications and benefits upon relocation to the Nevada area. We will recruit a local workforce of initially 30 jobs for our first year at an average wage of $31.37, as well as experienced candidates. Additional assistance provided by local technical colleges and internship from local universities will only enrich our workforce of highly skilled technicians and engineers.

Major Aerospace OEM Markets for AeroSpec:

AeroSpec will be providing NDT testing services for: Boeing, Bombardier, Spirit Aerospace, Cessna, GKN, GE Aviation, Pratt & Whitney, Goodrich, Triumph, Vought, Aeron, Coastal Composites, Kaman Aerospace, ATK Alliant. The potential list of customers grows larger every year for our expertise in the testing application of Composite materials. Capital Expenditures for start-up will be a $6,649,800.00 investments in our inspection processes and our state-of-the-art facility. These corporations will require our technical expertise and professionalism in the field of Non Destructive Testing and Examination.

Summary:

I would like to thank the state of Nevada for extending a warm welcome to my company. AeroSpec NDT is committed to our potential impact on the future economy of Nevada and the city of Reno and its surrounding communities.

Sincerely,

Frank S. Narbut
