APPLICATION HIGHLIGHTS
- Schlosser Forge Company dba Arconic (Arconic) is currently reviewing the possibility expanding its Verdi, NV operations by developing a world class leading heat treatment and machining facility.
- Phase one will comprise the construction of a 12,500-square-foot heat treatment building with groundbreaking anticipated in October 2018.
- Phases two - four will begin in 2019 with completion no later than 2022. These phases will include additional investment and workforce growth.

PROFILE
Arconic develops and manufactures high-performance, engineered products and solutions for the aerospace, industrial gas turbine, commercial transportation, defense and oil and gas markets. The company is headquartered in New York and has 157 locations in 25 countries. Arconic's Verdi, NV facility has been in operation since 1967 and manufactures large seamless rolled rings for the aerospace gas turbine industry. Materials processed include a variety of titanium, steel, and nickel based superalloys and size range spans from 36" to 150" diameter. The company's parts are used on a variety of commercial and military aircrafts. Arconic Verdi currently produces rings for all of the major aerospace engine manufacturers and participates on most of the new commercial and military programs. This ensures Arconic Verdi will continue to be a significant player in its field for decades to come. Arconic's Verdi site is well situated for future expansion activities with over 10 acres of undeveloped land and a vibrant workforce. The company's major competition resides in Europe, Mexico and Asia. By continued modernization, refinement of processes and cost controls, the Verdi facility will strengthen its foothold in the U.S. aerospace industry, capture off-shore revenue and continue to have a major economic impact on the Reno area economy.

SIGNIFICANCE OF ABATEMENTS IN THE COMPANY'S DECISION TO RELOCATE/EXPAND
The Nevada expansion is dependent on numerous factors, and the availability of incentives is a critical component of the decision-making process. The company is requesting the benefits available under the Sales and Use Tax Abatement, Modified Business Tax Abatement and Personal Property Tax Abatement program. Without the abatement program, it is likely that the project would be located in southern California close to other existing facilities.

EMPLOYEE BENEFITS
- Percentage of health insurance covered by company: 92%.
- Health care package cost per employee - $6,135 annually with options for dependents.
- Overtime, PTO/Sick/Vacation, Merit Increases, Bonus, Tuition Assistance, Retirement Plan/Profit Sharing 1401(k).

NOTES
- Percentage of market outside of Nevada: 100%.
- The company is also considering California as a potential location.
August 9, 2018

Paul Anderson
Executive Director
Nevada Governor’s Office of Economic Development
555 E. Washington Ave., Ste 5400
Las Vegas, NV 89101

Dear Mr. Anderson,

Schlosser Forge Company, which operates in Washoe County as Arconic, is a manufacturer of high performance engineered products. They have 157 locations worldwide and their Verdi facility has been in operation for 52 years. Their expansion strategy includes significant growth at the Reno location to meet increased demand for their products which serve the aerospace, defense, automotive, industrial gas turbine and commercial transportation industries.

They are requesting a Sales and Use Tax Abatement, Modified Business Tax Abatement and Personal Property Tax abatement and qualify on 2 out of 3 of the criteria. The opportunities associated with this expansion include a capital investment of $13 million and $7 million for building expansion for a total of $20 million as well as the creation of 15 new jobs with an average hourly wage of $26.57 and a full complement of health insurance plus benefit package. This is the 1st of 4 potential phases of expansion for Arconic which will take their current employee count from 160 full time workers to a total of 50 full time employees within 5 years.

While they are exploring options in California, Reno is well situated for an expansion with their facility residing on over 10 acres in Verdi. This overhaul and modernization effort will help to increase their manufacturing capacity and strengthen their position in the U.S. aerospace industry.

This application has the full support of EDAWN. The availability of incentives is a crucial element toward supporting their advantageous position during this period of unprecedented global demand for their products. We look forward to advancing the growth of the aerospace sector in the region and to supporting the attraction and growth opportunities in the industry.

Sincerely,

[Signature]

August 9, 2018

Mr. Paul Anderson  
Executive Director  
Nevada Governor's Office of Economic Development  
555 East Washington Ave., Suite 5400  
Las Vegas, NV 89101

Dear Director Anderson:

Arconic develops and manufactures high performance, engineered products and solutions for the aerospace, industrial gas turbine, commercial transportation, defense, and oil and gas markets. Arconic offers unique, comprehensive capabilities, from advanced alloy and 3D printing powder development to advanced manufacturing and qualification expertise. Arconic is a global company with 157 locations in 25 countries, and our corporate headquarters is located in New York. Our Verdi, NV facility, in operation since 1967, manufactures seamless rolled rings for the aero engine industry.

We are currently reviewing the possibility of developing a class leading heat treatment and machining facility. If the project moves forward, we will create 15 jobs with a proposed start date of hiring effective March 2019. Alternatives include expanding our operations in California and/or developing in Arizona. The Nevada expansion is dependent on numerous factors, and the availability of incentives is a critical component of the decision-making process. We are requesting the benefits available under the Sales and Use Tax Abatement, a Modified Business Tax Abatement and a Personal Property Tax Abatement programs.

The proposed expansion plan for Verdi includes an investment of $7 million for building expansion, upgrades and general site infrastructure modifications. Coupled with an investment in new equipment and strategically modernizing existing equipment totaling $13 million, for a total of $20 million. In addition, the plan calls for the addition of 15 employees to staff and operate the new operations. The average hourly rate of the new employees is projected to be $26.57. We also provide a comprehensive benefit plan to our employees and offer a 401(k) plan, dental and vision plans, and paid time off.

This project is a strategic expansion of the existing facility in Verdi and we are excited about the opportunities presented by this expansion. We appreciate your consideration of our request and look forward to growing our presence in the region. The Arconic Engines facility in Verdi has been a strong employer for over 50 years and we are hopeful of being able to offer employment to an additional 15 Nevadans and we are looking forward to making a positive impact to the Western Nevada economy because of the project.

Sincerely,

Matthew T. Riehl  
Director, Government Affairs & Business Development

Mr. Paul Anderson  
Executive Director  
Nevada Governor’s Office of Economic Development  
555 East Washington Ave., Suite 5400  
Las Vegas, NV 89101

Dear Director Anderson:

RE: APPLICATION FOR INCENTIVES – REQUEST FOR CONFIDENTIALITY OF RECORDS AND DOCUMENTS

Dear Director Anderson:

On August 9, 2018, Schlosser Forge Company dba Arconic submitted an application to you as the Executive Director of the State of Nevada Governor’s Office of Economic Development (“GOED”) requesting approval of economic incentives for the expansion operation in Washoe County, Nevada. The purpose of this letter is to request that any and all records and other documents in GOED’s possession concerning initial contact with, research and planning for Schlosser Forge Company dba Arconic, including but not limited to certain information in that application, and if amended, all be kept confidential pursuant to Section 4 of Assembly Bill No. 17 (2015 Regular Session) as codified in NRS 231.069.

Please be advised that Schlosser Forge Company dba Arconic specifically deems the following information proprietary and confidential:

1) The detailed schedule of Employment List
2) The detailed schedule of Capital Equipment List

Thank you for your consideration. If you have any questions or require any further information, please do not hesitate to contact me.

Sincerely,

Matthew T. Riehl  
Director of Government Affairs & Business Development  
Arconic
REQUEST FOR CONFIDENTIALITY DETERMINATION

Pursuant to NRS 231.069, and upon the request of applicant Schlosser Forge Company dba Arconic, the Executive Director of the Office has determined the:

(i) The detailed schedule of Capital Equipment List, 5(A)
(ii) The detailed schedule of Employment List, 5(B)

are confidential proprietary information of the business, are not public records, and shall be redacted in its entirety from the copy of the application that is disclosed to the public.

Paul Anderson
Executive Director

Has your company ever applied and been approved for incentives available by the Governor’s Office of Economic Development?  
[ ] Yes  
[ ] No

If Yes, list the program awarded, date of approval, and status of the accounts (attach separate sheet if necessary):

### Section 3 - Program Requirements

Please check two of the boxes below; the company must meet at least two of the three program requirements:

- [ ] A capital investment of $1,000,000 in eligible equipment in urban areas or $250,000 in eligible equipment in rural areas are required. This criteria is businesses. In cases of expanding businesses, the capital investment must equal at least 20% of the value of the tangible property owned by the business.
- [ ] New businesses locating in urban areas require fifty (50) or more permanent, full-time employees on its payroll by the eighth calendar quarter quarter in which the abatement becomes effective. In rural areas, the requirement is ten (10) or more. For an expansion, the business must increase employees on its payroll by 10% more than its existing employees prior to expansion, or by 25 (urban) or 6 (rural) employees, whichever is greater.
- [ ] In urban areas, the average hourly wage that will be paid by the business to its new employees is at least 100% of the average statewide hourly in rural areas, the average hourly wage will equal or exceed the lesser of the county-wide average hourly wage or statewide average hourly wage.

Note: Criteria is different depending on whether the business is in a county whose population is 100,000 or more or a city whose population is 60,000 or more (i.e., “urban” area), or if the business is in a county whose population is less than 100,000 or a city whose population is less than 60,000 (i.e., “rural” area).

Please summarize the importance of the abatement program to your decision (please include at least a paragraph summary):

Without the abatement program it is likely that the project would have been located in Southern California close to other existing facilities.
Equipment Schedule, Detailed

The Office has determined the detailed equipment schedule as described in this application constitutes confidential proprietary information of Schlosser Forge Company dba Arconic, and is not a public record.
Employment Schedule, Detailed

The Office has determined the detailed employment schedule as described in this application constitutes confidential proprietary information of Schlosser Forge Company dba Arconic, and is not a public record.
5(C) Evaluation of Health Plans Offered by Companies

Company Name: Schlosser Forge Company dba Arconic
County: Washoe County

Total Number of Full-Time Employees: 15

Average Hourly Wage per Employee $26.57
Average Annual Wage per Employee (implied) $55,265.80

Annual Cost of Health Insurance per Employee $6,135.00
Percentage of Cost Covered by:
  Company 92%
  Employee 8%

Health Plan Annual Out-of-Pocket Maximum $3,000

Generalized Criteria for Essential Health Benefits (EHB)
[following requirements outlined in the Affordable Care Act and US Code, including 42 USC Section 18022]

Covered employee's premium not to exceed 9.5% of annual wage 1.0% MMQ

Annual Out-of-Pocket Maximum not to exceed $7,150 (2017) $3,000 MMQ

Minimum essential health benefits covered (Company offers PPO):
(A) Ambulatory patient services
(B) Emergency services
(C) Hospitalization
(D) Maternity and newborn care
(E) Mental health/substance use disorder/behavioral health treatment
(F) Prescription drugs
(G) Rehabilitative and habilitative services and devices
(H) Laboratory services
(I) Preventive and wellness services and chronic disease management
(J) Pediatric services, including oral and vision care

No Annual Limits on Essential Health Benefits

I, the undersigned, hereby declare to the Governor's Office of Economic Development that the facts herein stated are true, and that I have attached sufficient plan information highlighting where our plan reflects meeting the 65% minimum threshold for the employee paid portion of the plan for GOED to independently confirm the same.

Site Overview

Arconic Verdi manufactures large seamless rolled rings for the aerospace gas turbine industry.

Our parts are used on a variety of commercial and military aircraft.

Materials processed include and variety of Titanium, Steel and Nickel Based superalloys

Size range spans from 36” to 150” diameter
Where Verdi fits in the Arconic Family...

**Diverse Range of Contour and Rectilinear Rings**

- **Rochester, Ny**
  - Small to medium rings in nickel, titanium and steel; world leader in aero-bearings
- **Suzhou, China**
  - Aerospace and commercial rings for the Asian market
  - Project Dragon - Expansion
- **Fontana, Ca**
  - Medium to large rings with capabilities to support speed and flexibility; aluminum centre of excellence
- **Verdi, Nv**
  - Large contoured nickel based material, steel and titanium rings for aerospace and IGT
- **Rancho Cucamonga, Ca**
  - Large nickel and titanium rings; specialises in large and critical containment cases
Applications

Areas highlighted in **RED** represent Verdi Products

- Booster Spool (LPC)
- Fan Hub Frame
- Low Pressure Turbine Case (LPT)
- Turbine Rear Frame
- Intermediate Turbine Case
- Combustor Case
- High Pressure Compressor Case (HPC)
- High Pressure Turbine Case (HPT)
- Fan Case
- Labyrinth Ring Seals

Site Overview

- Location: Verdi, NV
- 22 acre site – 138k ft² under roof
History

- In 1952, Viking Forge and Steel Company began as a two man forge shop in Albany, California forging gear blanks.

- In 1959 Viking acquired the Western Hemisphere's first German-made automated Wagner Ring Mill. This mill now retired still sits in the Verdi forge shop.

- In the early 1960s the Company began conducting high temperature metallurgical studies of superalloy materials. This gave Viking a technical advantage that resulted in a surge of orders far beyond the capacity of the Albany plant. In 1966 ground was broken for Viking Metallurgical Corporation's new plant in Verdi, Nevada to increase manufacturing capacity. Nevada was chosen because of its lower manufacturing costs.
History

- July, 1969 Viking was acquired by Air Reduction Company, Inc. or Airco as it was known. During Airco’s ownership, with its greater resources, sales increased threefold.

- April, 1976 ownership of the Company changed again when Quanex, a steel tube manufacturer, set out to expand its product line into exotic metals. Quanex installed an Electron Beam Furnace for melting scrap titanium and nickel-based materials.

- In 1992 THT, Titanium Hearth Technologies (a joint venture between Axel Johnson and Timet) purchased the electron beam furnace operation. This operation peaked in 1997 producing 3,000 tons of titanium ingot and slab annually. The melting side operated independently from the forging operation until its closure in 1999 due to a slow down for Titanium from the aerospace and commercial (golf) sectors.

- Sheffield England based Firth Rixson purchased Viking Metallurgical in 1996.

- 1997 was a year of major capital investments. Both the 3200 ton press and 400/200 axial ring mill were installed. The addition of these machines greatly expanded both the size and complexity of parts produced in Verdi.

- November 2014-Firth Rixson is purchased by Alcoa. Verdi is integrated into Alcoa Fastening Systems and Rings

- November of 2016- Arconic splits from Alcoa
Verdi Capabilities – 3,200 Ton Press

Installed at Viking 1997
Mechanical components OEM: Loewy Hydropress
Hydraulics OEM: Wepuko Pahnke
Underwent major overhaul and base rebuild late 2013

Capabilities:
- Open die forging
- Saddling
- Upsetting
- Extruding
- Punching
- "Shingling"
- "Stripping"
Verdi Capabilities – 1,500 Ton Press

1500 ton Press Installed at Viking 1960 (Albany, CA then relocated to Verdi, NV)
OEM: HPM Corporation

Capabilities:
- Open die forging
- Axial flattening
Verdi Capabilities – Vertical Ring Mill

VRM (Vertical Ring Mill)
Installed at Viking 1992
OEM: Burns Machinery
300 ton radial rolling force

Capabilities:
Straight wall ring rolling
Rings up to 60” O.D.,
30” face height
Verdi Capabilities – 400/200 Ring Mill

Installed at Viking 1997
OEM: SMS-Meer
400 tons radial rolling force, 200 tons axial rolling force
Radial and axial ring rolling
Straight wall and contoured ring rolling
Rings up to 173” OD, 35” height
Verdi Capabilities – 3000 Ring Mill

Installed at Viking 1965
OEM: Wagner-Dortmund (SMS-Meer)
230 tons radial rolling force

Capabilities:
Radial ring rolling
Straight wall and contoured ring rolling
Rings up to 118" OD, 19" height
Verdi Capabilities – Ring Sizers

Sizers

1. 50" Sizer (380 Ton)
2. 100" Sizer (1000 Ton)
3. 150" Sizer (3000 Ton)
Verdi Capabilities – Post Forge

Heat Treat

1 High-Temp Solution Treat Furnace
2 Age Furnaces
Water Quench, Polymer Quench, Rapid Air Cool

Inspection

1 CMM
1 FARO Arm
In house Lab (Spot Micrographs)
AFSR Verdi Process Overview

Process Flow

Raw Material → Cutting → Forge → Heat Treatment → Machining → Non-Destructive Testing → Destructive Testing → Inspection

Arconic Verdi's future.....

The Verdi site is well situated for future expansion activities with over 10 acres of undeveloped land and a vibrant workforce.

Major expansion is underway. Heat Treat & Machining area expansion has begun or is planned for 2018. A major overhaul and modernization effort of the 400/200 Ring Mill work cell will complete in late 2018.

Arconic Verdi currently produces rings for all of the major aerospace engine manufacturers and participates on most of the new commercial and military programs. This ensures Arconic Verdi will continue to be a significant player in its field for decades to come.

Our major competition resides in Europe, Mexico and Asia. By continued modernization, refinement of processes and cost controls, the Verdi facility will strengthen its foothold in the U.S. Aerospace industry, capture off shore revenue and continue to have a major economic impact on the Reno area economy.
